**TINTA PET
SERIE 6600**

This ink is used as an anchorage base (adherence) on PET (for example: siphons, drums, etc.), and then printed with the VINILPLUS line, which have fast drying and great adhesion on it. It comes exclusively in white. For its application the use of polyester mesh of 90 to 120 threads / cm is recommended.

PRODUCT STABILITY

It remains unchanged for a prolonged period in its closed container and in a fresh and dry environment.

IMPORTANT NOTE

- I. The inks formulated by Pintesint SAICyF must be used exclusively with the solvents and the complementary products that it manufactures for that purpose. Due to the diversity of products in the market, the company is not responsible for the use of the same from another source.
- II. The suggestions and data of this literature were elaborated in good faith, to guide the user. We recall the importance of checking the adaptability of inks and complementary products by testing before starting production. Due to the fact that the conditions of use of the products are not under our control, the present does not constitute a guarantee on the work to be done.
